PART I.

GENERAL SUMMARY.

Personnel.

MR. A. P. HOWELL, B.C.S., held charge of the office of Resident at Hyderabad until the 6th August 1889, on which date he was relieved by Mr. D. Fitzpatrick, C.S.I., B.C.S. (now Sir Dennis Fitzpatrick, K.C.S.I.), who remained in charge for the rest of the year. The office of First Assistant Resident and Secretary for Berar was held by Mr. G. S. Forbes, M.C.S., from the 1st to the 21st April 1889; by Mr. F. L. Petre, B.C.S., from the 22nd April to the 22nd October 1889; by Mr. J. A. Crawford, Bo.C.S., from the 23rd October 1889 to the close of the year. Major A. M. Muir, B.S.C., held the office of Second Assistant Resident and Assistant Secretary for Berar throughout the year. The appointment of Commissioner of Berar was held by Mr. T. Chichele Plowden, B.C.S., throughout the year, with the exception of three months from the 6th August to the 5th November 1889, when he proceeded on privilege leave. During his absence Colonel Szczepanski, B.S.C., officiated for him. Colonel K. J. L. Mackenzie, M.S.C., held the appointment of Judicial Commissioner of Berar throughout the year, except during his absence on privilege leave for one month from the 20th November to the 19th December 1889, when Colonel Szczepanski officiated for him.

Survey.

2. A small area of 8 square miles in the Melghat which had been omitted in the previous year was surveyed by the Forest Survey party during the year under report. The work was executed partly on the 4" and partly on the 2" scales. The publication of the map sheets of the Melghat survey, which was delayed pending the settlement of the western boundary of that tract, will now be proceeded with. An expenditure of Rs. 5,206 incurred in 1888-89 was adjusted in the Berar suspense accounts of that year. A further sum of Rs. 4,679 was expended after the close of the year on account of publication of maps. As regards the Revenue Survey, with the exception of one village in the Basim District, which was classed, the work done was solely in the Wun District. The lands of 4 khalsa, 5 jaghir, and 75 izara villages were surveyed and assessed; in 15 other izara villages the lands were broken up into survey numbers, and only their classification remained to be done. At the close of the year there were 244 izara villages with an area of 270,782 acres to be surveyed in this district. The outturn of work for the year as compared with that of the preceding year was as follows:—

	1888-89.	1889-90.
No. of fields measured ...	2,488½ or 81,770 acres.	3,117 or 107,751 acres and 38 guntas.
No. of fields classed ...	2,057 or 51,420 acres.	3,116 or 77,523 acres and 11 guntas.

Of the total area measured, 325 fields (10 per cent.), aggregating 8,151 acres 14 guntas, and of the land classed, 295 fields (8 per cent.), aggregating 7,754 acres 16 guntas, were tested. The total expenditure was Rs. 19,164-9-4. Deducting fines, the total net cost was Rs. 19,122-13-8 against Rs. 19,194-7-2 in the previous year.

Waste lands.

3. The number of leased villages fell from 507 to 493, and the total acreage from 914,545 to 895,761. The rental rose from Rs. 88,122 to Rs. 89,209.

Course of legislation.

4. Six Acts of the Imperial Legislature were made applicable to the province in addition to three other Acts—the Hyderabad Assigned Districts Births, Deaths, and Marriages Registration Law, the Hyderabad Assigned Districts Courts Law, and the Hyderabad Assigned Districts Small Cause Courts Law, which were specially passed by the Governor-General in Council. Besides these the Resident framed rules under the Indian Explosives Act, 1884, and the Bombay Boiler Inspection Act, 1887.

Police.

5. The total strength of the police force employed in the province was 2,810 against 2,787 in the previous year. The increase is due to the entertainment of additional men in the Amraoti district and a further reduction of camel sowars and the strengthening of the foot police. The total number of deaths in the force recorded rose from 44 to 50, and the death-rate from 1·5 to 1·7.

Crime.

6. The total number of cases of cognizable crime was 8,652 against 8,601 in the previous year. Of this number, 104 were rejected as false. Except under the head of robberies, there has been a general decrease in serious crime. Murders fell from 33 to 30, dakaitis from 19 to 10, house-breakings from 1,194 to 900, and thefts from 2,819 to 2,347. Robberies alone rose from 36 to 41. One of the dakaitis was committed in the Melghat by the remnants of Tantia Bhil's gang, who made off into the Central Provinces, whence their incursion had been made. The value of property reported as stolen rose from Rs. 2,10,638 to Rs. 2,18,656; but the value recovered fell from Rs. 64,847 to Rs. 54,419. Of the cases of cognizable crime, 5,259, or 60·7 per cent., ended in conviction compared with 4,843, or 56·3 per cent., in the previous year. The number of non-cognizable offences was 6,529 against 7,598 in 1888. The number of persons against whom process issued fell from 14,226 to 12,706, and the number of individuals convicted from 4,629 to 4,381.

Criminal Justice.

7. Including cases pending at the close of the previous year there were in all 12,862 criminal cases for disposal, of which 12,800 cases affecting 21,072 persons were disposed of, leaving 62 pending at the close of the year under report. The percentage of convictions was 47·5 against 46·7 in 1888. Serious offences against the person rose from 107 to 117, the increase being chiefly under the head of grievous hurt. Murders increased from 32 to 33, while dakaitis fell from 21 to 12, and thefts also decreased largely. On the whole there was a general decrease in crime. The number of persons appearing for trial before the Sessions Court fell from 67 in the previous year to 66 in the year under report. Of the 66 persons whose cases were disposed of, 4 were convicted and sentenced to death, 22 to transportation, 13 sentenced otherwise, and 27 were acquitted. Of 4 persons sentenced to be hanged, the sentence of one was commuted by the Judicial Commissioner as High Court to transportation for life. The average duration of trials before the Magistracy was 5·1 days, and of those before the Sessions Court 60 days against 55·2 in the preceding year. Including cases pending from the previous year there were in all 379 appeals for disposal by Deputy Commissioners, out of which 367 were decided during the year. The average duration of appeals was 9·8 days. In the Court of the Sessions Judge there were 291 appeals, of which 259 were disposed of. In the Resident's Court 24 appeals were preferred, all of which were decided.

Prisons.

8. The total jail population of the year was 2,820 against 2,968 in the previous year, and the number of admissions 1,539 against 2,071. The number of previously convicted prisoners fell from 262 to 205. Of 4 prisoners who escaped during the year, 3 were recaptured, besides 1 who had escaped in a former year. Punishments for breaches of jail rules rose from 315 in 1888 to 328 in the year under report. The mark system continued to work well. A new form of employment in the shape of brick-making was introduced in the Basim jail and proved remunerative. The total cash earnings of prisoners sentenced to labour fell from Rs. 14,721 to Rs. 9,160, the average earnings per head sentenced to labour from Rs. 15-5-0 to Rs. 8-15-0, and the average earnings per head employed on manufactures from Rs. 34-4-0 to Rs. 20-10-0. Although the general health of the convicts was somewhat better than in the previous year, the ratio per mille of deaths rose by 7·7. The gross cost of maintaining and guarding prisoners rose from Rs. 65,510 to Rs. 66,284, but the total average cost per head fell from Rs. 64-7-0 to Rs. 61-10-0.

Civil Justice

9. The number of civil courts open during the year was 34 against 36 in the previous year, and the number of suits instituted was 25,776 compared with 26,974 in 1888. The aggregate number of suits disposed of fell from 27,767 to 24,686 The average duration of contested cases was 57·8 days and of uncontested cases 34·2 days, against 59·2 and 31·7 respectively in the previous year. The aggregate value of the claims involved in the suits fell from Rs.

29,82,648-6-9 to Rs. 26,40,090-11-10. There were 28,646 applications for execution of decrees against 31,429 in 1888. The total value of the money decrees in execution fell from Rs. 2,98,879 to Rs. 2,61,602. Of this sum, Rs. 14,507 were paid in voluntarily and Rs 2,47,094 realized by coercive process. Including appeals pending from the previous year there were 664 appeals for disposal by chief appellate courts of districts. Of these 516 were disposed of. In the Civil and Sessions Court there were 480 appeals for disposal, of which 278 were disposed of, while the Judicial Commissioner's Court disposed of 285 appeals out of a total of 1,192 received during the year and pending from the previous year. Including 5 cases pending from 1888 there were 18 appeals before the Resident; of these, 10 were disposed of during the year.

Registration.

10. The total number of registrations rose from 28,151 in 1888-89 to 31,766 in the year under report, an increase of 3,615 over the number of the previous year. The figure is the highest recorded. The increase occurred principally in compulsory registrations, which were 3,555 more than in the previous year. Optional registrations increased by 32. The aggregate value of property transferred rose from Rs. 66,06,300 to Rs. 77,05,062, and the average value of each document from Rs. 235 to Rs. 243. The total income of the department rose from Rs. 61,853 to Rs. 70,866, the expenditure from Rs. 38,628 to Rs. 39,824, and the net surplus from Rs. 29,723 to Rs. 37,637. The total accumulated surplus at the close of the year amounted to Rs. 2,79,769 against Rs. 2,48,727 at the close of 1888-89. With the exception of one sub-registrar's office, all worked at a profit.

Municipalities.

11. The Berar Municipal Law of 1886 came into operation during the year, and the system of election is now established in all municipalities except that of Amraoti camp. The number of municipalities rose from 7 to 8 in consequence of the incorporation of the civil station of Amraoti camp. The total income of the year rose from Rs. 1,55,905 to Rs. 2,05,698, and the total expenditure from Rs. 1,59,991 to Rs. 1,64,851.

Local Boards.

12. The Berar Rural Boards Law came into force nominally on the 1st January 1886; but as, owing to difficulties connected with the rules, the Boards themselves were not established until the year 1889-90 was well advanced, very little work was done, except perahaps in Akola. The provisions of the law have not been applied to the Wun district and the Melghat taluk of the Ellichpur district owing to the backward state of those tracts.

Agriculture.

13. Owing to a further rectification of errors in village papers and to corrections made by the Survey and Settlement Officer, the total area of the province increased by 1,596 acres. The total area under crop rose by 7,858 acres. The only changes of importance occurred in the Wun and Basim districts, in the former of which the area was reduced by 8,130 acres, a result due to reclassification, while in the latter district corrections made by the Survey and Settlement Officer resulted in an increase of 15,671 acres. The area under rabi and miscellaneous crops fell off by 214,908 and 4,240 acres respectively; but this decrease was made up by an increase of 359,671 acres under kharif. The percentage of acreage under wheat and linseed show a decrease of 2·1 and 1·1 per cent. respectively as compared with the previous year, but that under cotton and jowari, the two most valuable staple crops of Berar, rose by 4 and ·7 per cent. respectively. Owing to the preference given by agriculturists to the cultivation of dry crops, the area under irrigation shows a further decrease of over 2,000 acres.

Rainfall.

14. The average rainfall of the year was 38·13 inches, being nearly 8 inches more than the rainfall of the previous year. The fall during the monsoon was on the whole seasonable and evenly distributed; but the ordinary winter rain failed completely. The spring crops suffered from the unusual dryness caused by the failure of the winter rain; on the whole the rainfall of the year benefited the autumn crops. The rain in July and August was particularly favourable to cotton.

15. The average prices of wheat and grain were slightly higher than in the previous year, but the price of jowari, the staple food of the people, was

lower in every district except Basim. The price of rice was nearly the same as in the previous year. Except in two districts, wages of labour remained stationary.

Veterinary.

16. There was an outbreak of (rinderpest) cattle-plague during the year, and 18,891 deaths from this cause were recorded, but this figure is believed to be only a tithe of the actual losses owing to the repugnance the natives have to repressive measures. Of the Berar students studying at the Bombay Veterinary College, one passed during the year and two after its close. All three are therefore available for duty.

Agricultural stock.

17. The agricultural stock of the province shows an increase under all heads. That under cattle is ascribed to natural reproduction; but the returns are believed to be unreliable, and the figures can only be taken as approximate.

Takavi.

18. Advances under the Land Improvement Act were made in four districts only. The total amount advanced fell from Rs. 8,300 to Rs. 6,550.

Forests.

19. The area of forest lands in Berar show a net decrease of 163 square miles. The boundaries of the new State-forests of Medsi and Chandus were demarcated during the year, and the existing boundaries of demarcated State-forests in all districts were kept in order. Breaches of forest rules fell from 496 to 381. Protection from fire was most satisfactory. The areas attempted and successfully protected were greater than in any previous year, while the area over which protection failed was less. The approximate cost per square mile of area attempted rose from Rs. 6-9-0 to Rs. 7. The gross revenue rose from Rs. 4,08,192 to Rs. 4,40,541, the expenditure from Rs. 1,69,295 to Rs. 1,76,150, and the surplus from Rs. 2,38,897 to Rs. 2,64,391.

20. The work of registration of the rail-borne trade was as usual performed by the Railway Audit Office at Bombay. The total trade of the province, taking imports and exports together, exceeded that of the previous year both in weight and value. The import traffic increased both in weight and value, while the export traffic increased in value, but decreased in weight. The total values of the imports and exports for the past two years are contrasted below:—

	1888-89.	1889-90.	Increase or decrease.
	Rs.	Rs.	Rs.
Imports ...	1,57,69,832	1,93,80,166	36,10,334
Exports ...	4,06,70,097	4,26,36,963	19,66,866

The imports in coal, grains, metals, oils and sugar all show an increase. The most remarkable feature in the export trade is the increase in the export of raw cotton. These exceeded the exports of the previous year, which were then the highest recorded and were double those of 1887-88. The export trade in grains fell off considerably, and exports of oils also show a decrease of 17·79 per cent. in weight and 3·35 per cent. in value.

Public works.

21. The disbursements from all sources on public works amounted in the aggregate to Rs. 19,64,887. As regards imperial works, grants of Rs. 2,95,400 and Rs. 38,700 were made for military and civil works respectively; and Rs. 2,88,222 and Rs. 35,326 were expended. From the Berar Provincial Public Works Budget there was a grant of Rs. 11,13,300, of which Rs. 10,92,428 were expended, showing a lapse of Rs. 20,872, or 1·88 of the budget grant. The grants from the one per cent. road cess and from incorporated and excluded local funds amounted to Rs. 82,000, Rs. 79,342, and Rs. 2,67,316 respectively. Of the first sum, Rs. 73,412 were expended mostly on repairs to roads; of the second, Rs. 45,137 were spent chiefly on educational works; and of the last Rs. 2,16,239 were utilized, of which more than half represents outlay on original works. Military works were carried out from provincial funds in connection with accommodation for the Hyderabad Contingent troops located at Bolarum, Ellichpur, Raichur, Aurangabad, Hingoli, and Jalna, the expenditure thereon during the year amounting to Rs. 28,213. Satisfactory progress at an outlay of Rs. 1,01,747 was made in connection with administrative, jail, police, educational and

other miscellaneous buildings in Berar. Nearly two-and-a-half lakhs of rupees were expended on constructing and improving roads, and the last bridge required on the Amraoti-Ellichpur road, *viz.*, the one at Boogaon, was completed during the year. Several works relating to the water-supply of towns, &c., were completed, and others were in progress, the total outlay on original works, miscellaneous public improvements, being Rs. 81,047.

Railways.

22. The following statistics belong to the Berar State Railways. The working expenses of the Khamgaon line were Rs. 42,844 against gross receipts of Rs. 65,372, yielding a net profit of Rs. 22,528 equivalent to 4·59 per cent. on the capital outlay. The Amraoti line gross receipts were Rs. 1,02,023, and the working expenses were Rs. 60,352, showing a net revenue of Rs. 41,671 equivalent to 9·35 per cent. on the capital outlay. Subjoined is a table showing results of working these lines up to date from period of construction :—

	Capital outlay.	Simple interest on capital account.	Net revenue realized.	Loss or gain.
	Rs.	Rs.	Rs.	Rs.
Amraoti Railway	4,45,465	3,44,367	5,03,489	+1,59,122
Khamgaon do	4,90,799	3,97,330	2,39,464	—1,57,866

Revenue and Finance.

23. The gross revenue of the province during the year 1889-90 amounted to Rs. 1,18,35,314, and the total disbursement to Rs. 1,02,51,177. Omitting the receipts and disbursements of the incorporated and the excluded local funds, the provincial surplus was Rs. 14,64,728 compared with a surplus of Rs. 14,24,939 for the year 1888-89. The amount paid to His Highness the Nizam during the year 1889-90 was Rs. 14,24,939, being the surplus of the year 1888-89, and the accrued surplus in favor of His Highness on the 31st March 1890 was Rs. 41,17,834. Of the gross income, Rs. 1,02,28,626 were derived from provincial revenues, Rs. 6,32,944 from incorporated and Rs. 9,73,744 from excluded local funds. Rs. 87,63,898 of the provincial revenues, Rs. 8,54,335 of the excluded local funds, and the whole of the incorporated local funds revenue were utilized. The provincial contract shows a saving of Rs. 3,44,963. The accrued balance in favor of the Resident at the close of 1889-90, inclusive of Rs. 5,00,000 allowed for any extraordinary emergency in accordance with paragraph 4 of the Government of India Financial Department Resolution No. 5957, dated 5th November 1887, was Rs. 10,11,388. The principal sources of income other than land revenue exhibiting an increase which call for any special remark were opium, stamps, excise, forest, registration and law and justice, courts of law and state railways. On the other hand the figures under police, stationery, miscellaneous, and contributions from local to provincial show reduced receipts. There is also a falling-off in the military receipts chiefly occurring under ordnance establishments. The total receipts show a net increase of Rs. 1,80,733 chiefly under civil and railways, while the total disbursements show a net increase of Rs. 1,40,945 chiefly under state railways, civil works, and military Hyderabad Contingent.

Vital statistics.

24. The year was a very unhealthy one compared with its predecessor, and returned a high rate of mortality. Cholera, malarious fevers, dysentery, and diarrhœa were more prevalent than in the previous two years. The number of deaths recorded rose from 64,865 to 111,556, and the death-rate in proportion to population from 24·7 to 42·5 per 1,000. The number of births registered fell from 108,390 to 103,780, being a decrease of 4,610. The rate to population was 39·6 per mille. Of the births registered, 53,463 were males and 50,317 females. In districts the highest birth-rate was recorded in Buldana, and the lowest in Akola.

Medical relief.

25. The number of civil hospitals and dispensaries open in the province rose from 43 to 44, and the total number of patients treated from 256,799 to

273,212. This was the natural outcome of the unhealthiness of the year. Malarious fever was as usual the principal cause of admissions. The number of major surgical operations rose from 218 to 230. The gross receipts rose from Rs. 1,06,684 to Rs. 106,902, and the expenditure, excluding investments, from Rs. 96,191 to Rs. 1,00,845.

Sanitation.

26. With the exception of Khamgaon, all the municipalities are hard pressed for funds; and no important sanitary works were undertaken or completed during the year under report. Attention was, however, paid more or less in all the municipalities to the improvement of drainage, water-supply, and conservancy. Out of a total municipal income of Rs. 2,01,712 a sum of Rs. 91,529, or 45·3 per cent., was expended on sanitary purposes and 22·2 per cent. on conservancy alone. In districts outside municipalities the total expenditure incurred on works of sanitary improvement was Rs. 1,02,213 against Rs. 1,05,476 in the previous year.

Vaccination.

27. As regards vaccination, owing to the unhealthiness of the year, which caused much sickness among the vaccinators and a high mortality amongst infants, the results were not so good as in the previous year. The total number of primary operations fell from 101,225 to 96,745 and the ratio of success from 96·4 to 95·76. The number of re-vaccinations however rose from 4,377 to 6,927. Out of a total number of 92,651 successful primary operations 85,209 were performed by the special establishment and 7,442 at dispensaries. The total expenditure incurred exclusive of the Melghat fell from Rs. 16,811-15-6 to Rupees 16,695-8-9, but the average cost of each successful operation rose from Annas 2-11 to Annas 3-1.

Education.

28. The working of the Educational Department during the year under report shows somewhat better results than in the previous year. There was an increase of 49 in the number of schools for boys and of 3 in the schools for girls, while the total number of scholars increased by 1,305. The proportion of male pupils to male population of school-going age rose from 21·3 to 21·7. The results of the Matriculation examination were on the whole satisfactory; out of 31 students who appeared for examination 17 passed. The number of primary schools for boys increased by 5, and the number of scholars by 686. The training college continued to do good work. Female education made progress during the year: the number of schools increased by 3, the number of pupils by 73, and the number of those who passed in all standards by 74. A perceptible advance was also made in the education of Muhammadans, aborigines, and low caste boys. Improvement is also noticeable in physical education. The number of gymnasia open during the year increased by 19, and the number visited by the instructor by 39. The income from popular contributions fell off by nearly Rs. 4,000, but this was partially made up by an increase of Rs. 840 in the fee receipts. Moreover the total expenditure on education decreased by Rs. 16,376. On the whole the progress made by the Educational Department may fairly be said to have been equable and satisfactory.

SECTION VII.

Changes in the Administration.

2. Mr. A. P. Howell, B.C.S., held charge of the office of Resident at Hyderabad until the 6th August 1889, on which date he was relieved by Mr D. Fitzpatrick, C.S.I., B.C.S. (now Sir Dennis Fitzpatrick, K.C.S.I.,) who remained in charge for the rest of the year. The office of First Assistant Resident and Secretary for Berar was held by Mr G. S. Forbes, M.C.S., from the 1st to the 21st April 1889; by Mr. F. L. Petre, B.C.S., from the 22nd April to the 22nd October 1889; by Mr. J. A. Crawford, Bo.C.S., from the 23rd October 1889 to the close of the year. Major A. M. Muir, B.S.C., held the office of Second Assistant Resident and Assistant Secretary for Berar throughout the year. The appointment of Commissioner of Berar was held by Mr. T. Chichele Plowden, B.C.S., throughout the year, with the exception of three months, from 6th August to 5th November 1889, when he proceeded on privilege leave. During his absence Colonel Szczepanski, B.S.C., officiated for him. Colonel K. J. L. Mackenzie, M.S.C., held the appointment of Judicial Commissioner of Berar throughout the year, except during his absence on privilege leave for one month from the 20th November to the 19th December 1889, when Colonel Szczepanski officiated for him.

SECTION VIII.

Relations with Tributary States and Frontier Affairs.

3. There is nothing to record under this head.

CHAPTER II.

ADMINISTRATION OF THE LAND.

SECTION I.

Survey and Settlement.

Forest Survey.

4. In the Melghat a small area of 8 square miles, which had inadvertently been omitted the previous year, was surveyed partly on the 4″ and partly on the 2″ scales. The map sheets of the Melghat survey have in great part not been published, pending the settlement of the question of the western boundary of that tract. Orders were, however, passed in the matter shortly before the year closed, and there is now no reason for withholding the publication of the maps. An expenditure of Rs. 5,206 was incurred during the year 1888-89, and adjusted in the Berar suspense accounts in that year. The expenditure was chiefly on account of completing field work in the Melghat, map drawing and payments made to the Department of the Survey of India on account of printing and publishing maps, &c. A further sum of Rs. 4,679 has been expended since the close of the financial year, chiefly due to payments made to the Department of the Survey of India on account of publishing maps, &c., and to a vast amount of map drawing and heavy work in deducing field areas, as well as other miscellaneous work.

Survey and Settlement.

5. One village in the Basim district was classed in April 1889; but with that exception the entire establishment was employed solely in the Yeotmal and Kelapur taluks of the Wun district. The lands of 4 khalsa, 5 jagir and 75 izara villages were surveyed and assessed, and in 15 other izara villages the lands were broken up into survey numbers, but their classification had still to be done. There remained at the close of the year under report 244 izara villages to be surveyed in the district, *viz.* :—

				Acres.
Yeotmal taluk	2,	area to be measured	...	3,353
Wun	„ 117,	do.	...	108,946
Darwha	„ 45,	do.	...	40,547
Kelapur	„ 80,	do.	...	117,936
	244			270,782

that is to say, the area to be measured is about one and three-fifth times that already measured in izara villages in this district, the survey of which at the rate of working of the year under report would take about 2½ years to complete. But very little remains to be done in khalsa or jagir villages in the district. The outturn of work of the year under report and of the previous year is shown in the statement below—

i. Number and area of fields measured—

1888-89.		1889-90.		
Fields.	Acres.	Fields.	A.	g.
2,488½	81,770	3,117	107,751	38

ii. Number and area of fields classed—

1888-89.		1889-90.		
Fields.	Acres.	Fields.	A.	g.
2,057	51,420	3,116	77,523	11

The increase as compared with 1888-89 is 25,981 acres 38 guntahs measured and 26,103 acres 11 guntahs classed. It appears that in calculating the average work done by measurers, certain measurements taken by theodolite and

by scale from the maps have hitherto been included. Deducting these, the average area measured in a day with cross-staff and chain was 50 acres 33 guntahs in 1888-89 and 58 acres 30 guntahs in the year under report. For classers the average daily outturn was 172 acres 19 guntahs during 1889-90, compared with 162 acres 20 guntahs in the preceding year. The inspection of boundary marks shows a falling off, *viz.*, 11¼ fields as an average day's work, compared with 13½ fields in 1888-89. Of the total area measured, 325 fields (10 per cent.), aggregating 8,151 acres 14 guntahs, and of the land classed, 295 fields (8 per cent.), aggregating 7,754 acres 16 guntahs, were tested. The total expenditure was Rs. 19,164-9-4, but deducting Rs. 41-11-8 recovered by fines, the total net cost comes to Rs. 19,122-13-8 compared with Rs. 19,194-7-2 in 1888-89. The question of the re-organization of the Survey and Settlement Department with reference to the work remaining to be done in the Wun and Basim districts, and to the revision of the assessment for the whole province, and to the settlement of the Melghat, was discussed at a conference in Akola in January 1890, over which Sir Edward Buck presided, and eventually proposals were formulated and submitted for the orders of the Government of India.

SECTION II.

Waste Lands.

6. The number of villages leased under the waste land rules fell from 507 to 493, and the total acreage from 914,545 to 895,761; but the rental rose from Rs. 88,122 to Rs. 89,209. The decrease in the number of leased villages was due to the resumption of 14 villages in the Wun district.

SECTIONS III and IV.

Wards and Government Estates.

7. There are no wards or Government estates in the province.

CHAPTER III.

PROTECTION.

SECTION I.

Course of Legislation.

8. The following Acts of the Imperial Legislature were, subject to certain modifications, made applicable to the province during the year under report:—

Act IX of 1875 (The Indian Majority Act).
Act VII of 1887 (The Suits Valuation Act).
Act X of 1888—so much as amends the Code of Civil Procedure.
Act I of 1888 (to amend the Indian Stamp Act, 1879).
Act X of 1882—(Code of Criminal Procedure as modified by Acts III of 1884, X of 1886, and V of 1887) so far as the same may be applicable.
Act X of 1886 (amending the Code of Criminal Procedure, 1882, and certain other Acts).

The following special laws were also passed by the Governor-General in Council for the Hyderabad Assigned Districts:—

I. The Hyderabad Assigned Districts Births, Deaths, and Marriages Registration Law, 1888.
II. The Hyderabad Assigned Districts Courts Law, 1889.
III. The Hyderabad Assigned Districts Small Cause Courts Law, 1889.

The following rules were made by the Resident:—

1. Rules under the Indian Explosives Act, 1884.
2. Rules under the Bombay Boiler Inspection Act, 1887.

SECTION II.

Police.

Strength.

9. During the year the changes which occurred in the strength of the force were:—An addition of one head constable and eight constables to the police of the Amraoti district; a further reduction of camel sowars, by means of which nine more constables were added to the strength of the force; the reductions effected in some of the tahsil treasury guards which enabled the reserves to be increased by nine head constables and twelve constables; and the sanction of a temporary establishment of three constables at Bhoogaon in the Ellichpur district where the river is being bridged. These last were notenlisted, as recruits were not available. With these exceptions, no alterations were made in the strength of the force, which stood at 542 officers (including the Inspector-General and the six District Superintendents and two Assistants) and 2,268 men. The proportion of police to area was 1 to every 6·2 square miles, and to population 1 to every 950 persons.

Composition and health of the force.

10. The total number of deaths recorded was 50 against 44 in the previous year, and the death-rate rose from 1·5 to 1·7. Omitting vacancies, of which

there were 54 at the close of the year, the details of the force according to race or caste and religion were as follow:—

	Officers.	Men.
Christians	20	9
Muhammadans	195	923
Brahmins	157	378
Rajputs	35	169
Sikhs	9	9
Hindus of all other castes	125	726
	541	2,214
	2,755	

Conduct and discipline.

11 The conduct and discipline of the force during the year are shown by the following figures of rewards and punishments:—

Punishments.

	1888.	1889.

Resignations and entertainments.

12. The total number of men who left the force from all causes was 344 against 337 in the previous year; of these 56 retired on pension or gratuity, 157 resigned, 55 were dismissed, 20 discharged, 6 deserted and 50 died. As regards service, there were, exclusive of 351 recruits, 1,294 men with service ranging from one to ten years and 1,102 with service of ten years and upwards.

Equipment.

13. A proposal was made during the year for the re-armament of the force with snider rifles in lieu of the existing muzzle-loaders, which were old and worn out. The proposal was not accepted by the Government of India, who considered it would be sufficient, at all events for some time to come, if the portion of the police supplied with fire-arms at out-stations were armed with the best of the muzzle-loading weapons in use, and if the reserves maintained to quell disturbances and ready for extraordinary emergencies, were supplied with a breech-loading smooth-bore carbine to fire ball or buck-shot cartridges. The question was under consideration when the year closed. Excluding gazetted officers the number of men provided with fire-arms was 1,359; with swords only or swords and batons, 446; and with batons only, 996.

State of crime.

14. The total number of cases of cognizable crime reported during the year was 8,652, of which 104 were rejected as false, leaving a total of 8,548 cases investigated including 3,687 petty nuisance cases. The following table classifies the offences of the year under report and that preceding it:—

	1888.	1889.

„ VI.—Other offences	3,176	3,958
	8,484	8,548

Heinous crime.

15. Murders decreased from 33 to 30; but as two cases were subsequently struck off, and one case of double murder should have been registered as two cases, the actual number of cases recorded should be 29 Dakaities fell from 19 to 10 or by 47·3 per cent. The principal case of dakaiti was one committed in the Melghat by the remnants of Tantia Bhil's gang, headed by one Bondria, in which over Rs. 3,000 worth of property was carried off. The dakaits made off into the Central Provinces, whence their incursion to the Melghat was made. Robberies rose from 36 to 41. House-breakings decreased from 1,194 to 900, and thefts from 2,819 to 2,347.

Thefts.

16. Classified according to the value of property stolen, the figures under theft show a decrease under all values except Rs. 1,000 and over. The figures are compared below :—

SECTION III.

Criminal Justice.

21. The Hyderabad Assigned Districts Courts Law came into operation from the 1st of July 1889, and caused material change in the system of criminal jurisdiction in Berar. The court of the Judicial Commissioner became the High Court of the Province, and a new Sessions Court was constituted. In addition to these, the courts which exercised jurisdiction in Berar were— Tribunals.

6 Deputy Commissioner's Courts constituted under section 30 of the Criminal Procedure Code.
13 of First Class Magistrates.
20 of Second Class Magistrates.
2 of Third Class Magistrates.
14 of Special Magistrates

22. The table below shows the number of offences reported during the year under report as compared with those of the preceding year and how they were disposed of:— Amount of crime.

Years.	Offences reported.	Cases dismissed under section 203, Criminal Procedure Code.		Cases struck off as false.		Cases returned as true.		Cases brought to trial.	
		No.	Per cent	No.	Per cent	No.	Per cent	No.	Per cent
1888 ...	19,629	3,214	16·37	795	4·05	15,620	79·5	13,410	68·3
1889 ...	19,101	3,794	19·9	746	3·9	14,561	76·2	12,526	65·6

The number of offences reported fell by 528 or 3·2 per cent. during the year under review, the decrease being for the most part in offences against property.

There was a decrease in the number of offences struck off the register.

The number of cases dismissed under section 203, Criminal Procedure Code, increased by 3 per cent. The large number of acquittals is believed to have been due to magistrates not exercising sufficient discretion in admitting complaints. The number of cases brought to trial fell from 68·3 in 1888-89 to 65·6 in the year under report.

The following statement compares the offences in each class for the year under report with the figures of the previous year:—

	1889.	1888.	Increase.	Decrease.

Total ...	13,136	14,228	...	1,092
Grand Total ...	14,561	15,620	80	1,139

Offences under the head "Contempts of the lawful authority of servants" increased largely. Of the 4,094 offences affecting the human body, 33 were murders as against 32 in 1888. Offences under "Special and Local Laws" fell from 4,785 to 4,618.

Of the 14,561 offences returned as true, 12,526 were brought to trial. The number of persons before the courts during the year 1889 was 21,072 against 22,965 in 1888. Of these 10,434 or 49·8 per cent. were acquitted or discharged, 9,953 or 47·5 per cent. were convicted, 402 or 1·9 per cent. died, escaped or were transferred, and 155 or 0·8 per cent. were committed or referred.

Distribution of work.

23. The following statement shows the distribution of work among the several courts as compared with the previous year:—

Special jurisdiction of Deputy Commissioners.

24. During the year 64 cases were disposed of by District Magistrates in exercise of their enhanced powers. Of the 134 persons tried, 55 or 41 per cent. were convicted, and 79 or 59 per cent. either acquitted or discharged. The average duration of cases decided by the several classes of magistrates (including

cases under section 30, Criminal Procedure Code) was 5·1,1 days against 5·1 and 5·6 in 1888 and 1887 respectively.

25. The number of summary trials rose from 453 in 1888 to 623 in the year under report. Summary trials.

26. No trials of European British subjects took place during the year. Trials of European British subjects.

The following statement shows the total number of punishments inflicted by the various classes of Courts :—

27. During the year under report 8,617 persons were sentenced to fine against 8,738 in the previous year, and the total amount of fines imposed was Rs. 63,955 against Rs. 62,951. The total sum realized during the year was Rs. 53,169 of which Rs. 5,115 was utilized in paying compensation. Fines.

28. The total number of witnesses examined by the criminal courts was 24,388 of whom 525 or 1·4 were detained for more than 3 days. Witnesses.

29. The proportion of persons tried to total population was 1 in 129 against 1 in 119 in the preceding year. Proportion of offenders and witnesses to population

30. The Court of Sessions tried 66 persons, of whom 39 were convicted. Of the latter 4 were sentenced to death, 22 to transportation, and 13 were otherwise punished. In one case the sentence of death was commuted by the Provincial High Court to transportation for life. The percentage of convictions fell from 70·1 to 59·0. The number of cases tried with the aid of assessors was 35, in 22 of which the Judge agreed with the assessors. The duration of trials before the Sessions Court was 60 days, or 4·8 more than in 1888. Court of Sessions.

31. Including cases pending at the beginning of the year, there were 379 appeals for disposal by Deputy Commissioners against 443 in 1888. The number of persons whose appeals were disposed of during the year was 668, and there were besides 20 persons whose cases, remaining undisposed of when the year closed, are shown below:— Appeals.

1889 ...	330	97	66	175	...	...	20
1888 ...	286	213	97	175	1	1	8

The number of persons dealt with by the Sessions Court during the year was 352. In 158 cases appeals were rejected. In 62 the sentences were confirmed, in 37 modified, in 54 reversed and in 5 new trials were ordered, while 22 persons died or were transferred. Fourteen appeals remained undisposed of at the close of the year.

The average duration of appeals in the Deputy Commissioners' and Judicial Commissioner's Courts was 9·8 and 19·8 respectively against 9·8 and 21·3 in 1888.

The number of criminal appeals disposed of during the year in the Resident's Court was 24 including 4 cases pending from the previous year. These were disposed of as follows:—

Rejected	15
Sentences confirmed	3
Do. modified	2
Do. reversed	4
	24

Out of 14 applications for disposal by the Resident as a court of revision, 8 were rejected. In 1 the sentence was quashed, in 3 confirmed, in 1 altered, and in 1 further inquiry was ordered.

SECTION IV.

Prisons.

Jail population.

32. The year 1889 commenced with a population of 1,123 prisoners as compared with 1,053 in the previous year. The admissions amounted to 2,630 against 3,512 in 1888, and the direct admissions 1,539 as compared with 2,071. The daily average strength of all prisoners rose from 1018·5 to 1075·4.

No. of convicts and their disposal.

33. Taking convicts alone, the figures below show the number in the jails and how they were disposed of during the year:—

Remained at the end of 1888	1,079
Received from other jails	202
Imprisoned during the year	1,539
	2,820

These were disposed of as follows:—

Transferred to other jails	205
Released on appeal	130
„ on expiry of sentence	1,360
„ under remission rules	107
„ by order of Government...	9
Transferred to Lunatic Asylum	3
Escaped	1
Died	21
Remaining at end of the year	982
	*2,818

Classification of convicts.

34. The daily average strength of the convict population rose from 972·8 to 1032·4. Of the convicts admitted during the year 1,455 were males and 82 females; 249 were Muhammadans, 1,276 Hindus and Sikhs, 2 Buddhists and Jains and 1 Christian. According to age 5 convicts were under 16 years, 1,318 between the ages of 16 and 40, 205 between the ages of 40 and 60, and 9 above the age of 60. Of the female convicts 55 were married, 2 unmarried, 23 were widows, and 2 were prostitutes.

* This figure should be 2,820. The difference of 2 is not explained in the departmental report.

Previous occupation of convicts.

35. The figures relating to the occupation of the male convicts previous to their admission into jail are as follow:—

	1888.	1889.
Persons employed under Government or municipal or other local authorities	72	78
Professional persons	3	7
Persons in service or performing personal offices ...	138	142
Persons engaged in agriculture and with animals ...	669	654
Persons engaged in commerce and trade	186	147
Persons employed in mechanical arts, manufactures and engineering operations, &c.	109	140
Miscellaneous persons not classed otherwise ...	760	287
	1,937	1,455

Nature and length of sentence.

36. Particulars regarding the nature and length of sentence of the convicts are given below for the past two years:—

	1888.	1889.
Not exceeding one year	1,777	1,323
Above one year and not exceeding five years ...	217	162
Above five years and not exceeding ten years ...	43	23
Exceeding ten years	0	1
Sentenced to transportation	21	24
Do. death	13	4

Of the convicts admitted during the year, 111 were sentenced to simple imprisonment, 1,188 to rigorous imprisonment, 202 to rigorous imprisonment with solitary confinement, and 36 to rigorous imprisonment with whipping.

Previous convictions.

37. The number of convicts admitted into jail who had been previously convicted was 205 against 262 in the previous year Of this number 125 had been convicted once before, 39 twice and 41 more than twice. Of 5 juvenile convicts admitted during the year, 1 had been previously convicted.

Escapes and recaptures.

38. The number of prisoners who escaped during the year was 4. Of this number 3 were re-captured, besides one who had escaped in previous years. There were 9 prisoners remaining at large at the close of the year. One of the escapes was due to the fault of a warder who was punished with simple imprisonment for 6 months.

Offences and punishments.

39. Punishments for breaches of jail rules rose from 315 in 1888 to 328 in the year under report. Four of the offences were dealt with by the magistracy against 3 in the previous year. Corporal punishments rose from 9 to 23.

Jail schools.

40. The daily average number of convicts under instruction was 93·94 against 93·03 in the previous year. Of those under instruction 79 were released during the year. Of this number 29 were able to read and write well, 43 a little, while 7 had gained nothing. Of these, 68 on admission were unable to read and write at all, 6 could read and write a little, while 5 could read and write well.

Convict officers.

41. Out of a total of 118 convicts employed as prison officers, 112 were males and 6 females, against 114 and 6 respectively in the previous year. Twenty-four, of whom 1 was a female, were reduced or otherwise punished as compared with 26 in the preceding year.

Mark system.

42. The mark system continued to be appreciated by the convicts. Out of 107 released during the year, the longest remission gained was 297 days. No convict who came under the system failed to gain some remission.

Occupation of Convicts.

43. The average number of convicts at labor on working days rose from 836·35 in 1888 to 893·61 in the year under report. Details of employment are shown in the following statement:—

	1888.	1889.
On unremunerative labor	1·59	3·03
„ prison duties	328·43	357·96
„ jail buildings	48·08	53·30
„ manufactures	429·43	443·97
Sick	15·80	15·08
Convalescent	13·02	20·29

Manufactures.

44. The only new form of employment was brick-making in the Basim Jail which proved remunerative. Large quantities of broken stone were disposed of profitably in the Akola and Ellichpur Jails. Shoe-making has not so far proved a success on account of the prohibitive prices of the shoes manufactured. The net cash earnings compared with the previous two years fell off. This was due to the Amraoti and Akola Jails having had large balances of raw material on hand, and to the purchase of lithographic machinery for the latter institution. The following statement compares the figures for the past three years:—

	1887.			1888.			1889.		
	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p

SECTION V.

Civil Justice.

Changes in the system of courts.

48. The year 1889 is marked by the introduction of the scheme for reorganising the judicial agency under the Hyderabad Assigned Districts Courts

Law, which came into force on the 1st July 1889. The principal changes effected by this law may be summarised as follow :—

(*a*) The Judicial Commissioner, sitting almost the whole year at Amraoti, the head-quarters of the province, has taken the place of the Resident at Hyderabad as the High Court for Berar.

(*b*) The Courts of Deputy Commissioners are still under the law the "District Courts," or Principal Civil Courts of original jurisdiction in the districts. But the law also provides for the appointment of Civil Judges invested with the powers of Deputy Commissioners, and these appointments have now been so made as to largely relieve all Deputy Commissioners of ordinary civil judicial work, both original and appellate. One of the appointments represents an addition to the staff of the province, and the officer holding it is styled the Civil and Sessions Judge. He has been invested with the powers of the Court of a Deputy Commissioner throughout the province, and is subject to the control of, and subordinate to, the Court of the Judicial Commissioner only. The other Civil Judges are Assistant or (ocasionally) Extra Assistant Commissioners, and are subject to the control of, and subordinate to, the Courts of Deputy Commissioners. One such Civil Judge has been appointed in each district.

(*c*) Under the new law appeals in cases in which the value of the suit does not exceed Rs. 500 lie to the Court of the Deputy Commissioner or of the Civil Judge specially invested with his powers. Appeals in cases in which the value exceeds Rs. 500 lie direct to the Judicial Commissioner, who also hears second appeals from subordinate appellate courts.

49. The following statement compares the number of civil courts open during 1888 and 1889 :— Tribunals.

SECTION VI.

Registration.

Number of offices.

62. There was no change in the number of offices opened for registration business, which stood, as in the previous year, at 60 including the offices of the Inspector-General and the Inspector. The proportion of registration offices to area and population was therefore the same as in 1888-89.

63. The total number of registrations rose from 28,151 in 1888-89 to 31,766 in the year under report. A comparison of the figures for the past four years show that registration business has been increasing steadily. Registration work.

Years.	Compulsory.	Optional.		Wills, &c.	Total registrations.
		Immoveable.	Moveable		
1886-87	17,017	6,008	1,995	68	25,088

Total ...	28,078	66,06,301	31,665	77,05,062

Refusals to register rose from 226 to 235.

64. The total receipts for the year rose from Rs. 61,853 to Rs. 70,866, the expenditure from Rs. 38,628 to Rs. 39,824, and the net surplus from Rs. 29,723 to Rs. 37,637. The total accumulated surplus at the close of the year was Rs. 2,79,769 against Rs. 2,48,727 at the close of 1888-89. With the exception of one sub-registrar's office, all worked at a profit. Financial results.

SECTION VII.

Municipalities.

65. The number of municipalities increased from 7 to 8 in consequence of the incorporation of the civil station of Amraoti camp. All were administered under the Berar Municipal Law of 1886 which came into operation during the year. The municipality of Amraoti camp has been excepted under section 162 from the provisions of the law which require that a certain proportion of the members of a committee shall be elected thereto, but these provisions are in force in the remaining municipalities. SECTION VIII.

Local Boards.

67. This section is added in pursuance of the orders of the Government of India which require that an account should be given of the working of Local Boards

similar to that given of "Municipal Administration." The Berar Rural Boards Law came into force nominally on the 1st January 1886, but the Boards themselves were not established till after the year 1889-90 was well advanced, and, except perhaps in Akola, very little work was done. The delay in starting the Boards was due to difficulties connected with the rules, which were not disposed of until the beginning of 1889. Owing to the backward state of the Wun district and of the Melghat taluk of the Ellichpur district, no attempt has yet been made to apply the provisions of the law to these tracts. Since the close of the year under report a good deal has been done. Meetings have been regularly held, and the members in some cases have begun to evince interest in their duties. But sufficient time has not elapsed to enable any definite conclusions to be formed, and all that can be said at present is that under sympathetic guidance there is hope of attaining a fair measure of success. The introduction of the scheme has, however, imposed considerable extra work upon the Commissioner and the District Officers; and it is to be hoped that the pressure will be diminished when the initial difficulties have been overcome.

SECTION IX.

Military.

68. During the cold season of 1889-90 the Regiments of Cavalry and Batteries of Artillery, Hyderabad Contingent, changed stations in course of relief.

Major R. A. Gilchrist, Military Secretary to Resident, vacated his office in March 1890 on the termination of the tenure of his appointment, and was succeeded by Major A. J. Garrett, B.S.C., Commandant, 1st Infantry, Hyderabad Contingent.

The average strength of the Hyderabad Contingent Force in Berar during the year was follows:—

	Artillery.	Cavalry.	Infantry.

Akola	...	...	11
Ellichpur	126	...	62

CHAPTER IV.

PRODUCTION AND DISTRIBUTION.

SECTION I.

Agriculture.

Area of the province.

69. The total area of the province was increased by 1,596 acres. This was due to the rectification of errors in the village papers in the Chikhli taluk of the Buldana District, and to corrections made by the Survey and Settlement Officer. The distribution of the total area, exclusive of the Melghat, is shown below and compared with the figures of the previous year:—

	1888-89.	1889-90.	Difference.
1. Number of villages	6,677	6,677	...
2. Total area in acres	10,282,395	10,283,991	+ 1,596
3. Area not included in any survey numbers such as village sites, tanks, rivers, &c.	200,990	201,055	+ 65
4. Area demarcated as State-forests	287,475	287,575	+ 100
5. Do. Babul buns	15,655	15,616	— 39
6. Do. Rumnahs	34,964	35,946	+ 982
7. Do. other district reserved forests.	187,491	187,441	— 50
8. Fields assigned for free-grazing	716,102	729,992	+ 13,890
9. Do. village purposes... ...	59,497	59,568	+ 71
10. Unculturable lands not included in any of the foregoing	763,425	742,144	— 21,281
11. Balance assessed and available for occupation ...	8,016,796	8,024,654	+ 7,858
12. Occupied	7,590,182	7,601,387	+ 11,205
13. Not occupied	426,614	423,267	— 3,347

A change of status occurred in respect to 15 villages. Fourteen leased villages were resumed for non-payment of revenue and on expiry of lease; ten of these were totally waste and were brought under the head of "integral waste villages," while the remaining 4, together with 1 jagir village, were classed as khalsa.

Cultivated area.

70. The total area assessed and available for occupation rose from 8,016,796 to 8,024,654 acres, showing a net increase of 7,858 acres. The only changes of importance occurred in the Wun and Basim Districts. In the former the assessed land available for occupation was reduced by 8,130 acres—a result due to a scheme of re-classification introduced by the Deputy Commissioner. In the latter district corrections made by the Survey and Settlement Officer in breaking up block numbers resulted in an increase of 15,671 acres. The area under occupation aggregated 7,601,387 acres, and the area not occupied was 423,267 acres. There was a net increase of 11,205 acres in the acres—occupied lands, and a net diminution of 3,347 acres in that of unoccupied land. The total area under kharif rose from 4,751,183 to 5,110,854 acres while that under rabi fell from 1,693,495 to 1,478,587 acres. The area under miscellaneous crops fell from 24,826 to 20,586 acres.

Crops cultivated

71. The acreage under each of the principal kinds of crop for the past two years is shown in the following table :—

	1888-89.		1889-90.	
	Acres.	Proportion.	Acres.	Proportion.
Jowari—great millet or Holcus sorghum	2,218,260	33·9	2,284,050	34·6
Wheat	942,029	14·6	830,027	12·5
Gram	246,761	3·8	216,737	3·2
Rice or paddy	19,840	·3	20,084	·3
Bajri—spiked millet ...	68,818	1·1	68,321	1·03
Tur—Cadjan pea or Cajanus Indicus	200,300	·3	201,204	3·04
Til—sesame	133,793	1·8	76,028	1·1
Linseed	304,620	4·8	249,236	3·7
Urad	16,879	·3	20,096	·3
Hemp	10,400	·2	10,634	·2
Cotton	1,994,767	30·9	2,304,378	34·9
Total ...	6,156,467	...	6,280,795	...

The proportion of land cultivated with jowari and cotton increased from 64·8 to 69·5. The increase is chiefly under cotton, of which the acreage has risen from 1,994,767 to 2,304,378 acres. The season was favourable, and no doubt also the abundant harvest of the preceding year and the remunerative character of the crop encouraged additional cultivation. The two principal rabi crops, wheat and linseed, fell from 14·6 and 4·8 to 12·5 and 3·7 respectively.

Irrigated area.

72. The total area under irrigation fell from 62,710 to 60,545 acres. The decrease was general except in the Buldana and Basim districts. The area under rice rose from 19,840 to 20,084 acres. The increase occurred only in the Amraoti and Basim districts. The steady decrease in the irrigated area is believed to be due to the preference given by the agriculturists to the cultivation of dry crops, which are more remunerative and less precarious.

SECTION II.

Weather and Crops.

Rain-fall.

73. The average rain-fall of the year for the whole province was 38·13 inches against 30·20 inches in the previous year. It was below the average of the previous five years. The fall during the monsoon was on the whole seasonable and evenly distributed ; but the ordinary winter rain failed completely. After a heavy fall late in October, there was practically no more rain during the remainder of the year. One characteristic of the year was that rain fell for the most part in moderate showers, there being but few heavy downpours.

Effect of the rain-fall.

74. The spring crops suffered from the dryness caused by the failure of the winter rain, although up to the end of December the promise of the wheat crop was excellent. The rain in July and August was particularly favourable to cotton, which however suffered slightly from the October rain. On the whole the rain-fall of the year benefited the autumn crops.

Prices of produce and labour.

75. The average prices of wheat and gram were slightly higher than in the previous year ; but jowari, which is the staple food of the people, was cheaper in every district except Basim. The price of rice was nearly the same as in the previous year. Wages of labour remained stationary in the districts of Amraoti, Ellichpur, Wun, and Basim. In Akola and Buldana the prices of skilled and unskilled labour increased. The rise in the Akola district was due to the large field of employment afforded by the cotton factories, and in Buldana the new water works created a special demand.

L953

Agricultural stock.

76. The agricultural stock of the province is shown in the following table and compared with the figures of the previous year:—

	1888-89.	1889-90.
Cows and bullocks	1,694,134	1,741,946
Buffaloes	324,307	327,459
Sheep and goats	459,083	478,618
Carts	111,294	117,123
Ploughs	117,306	120,944

The increase under cattle is ascribed to natural reproduction; but the returns are believed to be unreliable.

Veterinary.

77. Of the Berar students studying at the Bombay Veterinary College, one passed the final examination and was employed in the province as a Veterinary Assistant. Two more who passed their examination after the close of the year are also available for duty. Three students are still unqualified. The comparative immunity from cattle-disease which the province enjoyed in the previous year was not maintained in the year under report. The total number of deaths from this cause reported during the year was 18,391. This figure represents a tithe only of the actual losses owing, it is believed, to the strong prejudice of the natives to the declaration of disease and isolation of sick animals. The disease, which appeared in the form of rinderpest (cattle-plague), first broke out at Vaghal in the Mehkar taluk, and seemed to have been of a sporadic nature; but subsequently the disease gradually extended to other parts of the province.

Horse-breeding.

78. The Government stallions covered in all 142 mares or 34 less than in the previous year. The falling-off was due to the stallion at Wun having served but 7 mares against 36 in the previous year. The Veterinary Superintendent surmises that this result is due to the apathy and ignorance of the cultivators.

Horse and cattle show.

79. The provincial horse and cattle show held at Amraoti proved an utter failure; only 258 head of cattle and 45 horses and ponies appeared for competition, of which 230 head of cattle were furnished by the Amraoti District alone.

Land Improvement Act.

80. As in the previous year, advances under the Land Improvement Act were made in four districts only. The total amount advanced fell from Rs. 8,300 to Rs. 6,550.

SECTION III.

Horticulture.

81. The nurseries and public gardens in Berar are, with one exception, maintained by local funds. The following statement shows the results for the past three years:—

	1889-90.	1888-89.	1887-88.

SECTION IV.

Forests.

82. The sanctioned strength of the superior staff during the year was the same as in the previous year; but the number of officers actually employed was less by one officer of the controlling staff. Proposals were submitted to the Government of India for the appointment of a sixth Sub-Assistant Conservator ship, and for permanent entertainment in Berar of two trained officers of the superior staff instead of only one as heretofore. Orders were passed after the close of the year. Staff.

83. There was a net increase of 163 square miles in the area of forest lands in Berar. The distribution of this area in shown in the following statement:— Forest area.

Classes of forest.	Area in square miles.				Percentage of forest area to area of province.
	Area on 1st April 1889.	Added during the year.	Excluded or transferred to other classes.	Area on 31st March 1890.

Total ...	4,151	709	546	4,314	24·4

84. All the lands in Berar under management of the Forest Department including the unreserved forests are demarcated. The boundaries of the demarcated State-forests have been further improved by means of cut lines which extend from warli* to warli and serve as exterior fire-lines, while the warlis themselves have been supplemented by wooden posts imbedded in mounds of loose stone. The State-forests of Bairagarh, Gugamal and Chikaldā in the Melghat are also demarcated in this manner. As regards the operations of the department in this direction during the year under report, the new State-forests of Medsi and Chandus (in Basim) were demarcated on the system explained for this class of forests, and the existing boundaries of demarcated State-forests in all districts were kept in order. The work of repairing the warlis of the district reserved forests in Amraoti was completed during the year, while petty repairs in the same direction were executed in other parts of the province. Boundaries.

85. Excluding the cases pending at the close of the previous year, the number of prosecutions for breaches of forest rules fell from 496 to 381. The number of cases disposed of during the year was 383 against 495 in the year preceding. These cases involved 681 persons, of whom 530 were convicted and 151 acquitted. Prosecutions.

86. The following statement compares the results of fire protection for the past two years:— Fire conservancy.

87. The new Berar Forest Law had not come into force when the year closed. The old order of classification was accordingly still adhered to.

88. The Raipur-Makla working plan was cancelled during the year, and one embracing the entire area of the Bairagarh and Gugamal reserves, consisting of over 500 square miles, was proposed instead. The outline of this project, drawn Working plans.

* Warlis are mounds of earth and stones which serve to demarcate field numbers.

up by the Conservator after long and careful examination of the forests named was submitted for the opinion of the Inspector-General of Forests, and it is probable that these reserves will come under systematic management from the 1st November 1891. The forest work of the year was carried out on the basis of annual plans of operations prepared by the Divisional Forest Officers in consultation with the Deputy Commissioners and approved by the Conservator.

Grazing.

89. Grazing in the demarcated State-forests was put a stop to everywhere except in the State-forests of Buldana, in which it was permitted in consequence of the absorption of waste lands for purposes of cultivation. The revenue realized on cattle grazed in the district and unreserved forests rose from Rs. 1,61,660 to Rs. 1,64,591, while the realizations from this source in the demarcated State-forests fell from Rs. 9,534 to Rs. 4,701.

Natural reproduction.

90. The Conservator, after a personal inspection of the South Berar forests, reports more favourably on natural reproduction in those forests. Some of the reserves are said to promise well for the future; and elsewhere conditions are so far favourable that instances of the successful reproduction of teak are not wanting where there is adequate shelter, and fertile seed-bearing trees occur in sufficient numbers. The reproduction of inferior species in most of these forests is also reported to be sufficiently good.

Cultural operations.

91. The area under cultural operations was 2,381 acres, against 11,418 in the previous year. During the year 869 acres were added and 9,906 excluded, the largest areas thus abandoned being in the districts of Basim and Amraoti. Broadcast sowing having for the most part proved unsuccessful, only such cultural operations were performed during the year as had been commenced in the previous year. The two date plantations at Ellichpur are reported to be doing well.

Communications.

92. In the Melghat 24 miles of road were completed by departmental agency. The Raipur-Jarida road was finished, as also a new road from Chowkrakhund to Butram, a length of 12 miles. The total cost of these roads was Rs. 10,801, or Rs. 450 per mile. Repairs were executed to 169 miles of road at a cost of Rs. 11-8-0 per mile. The roads, both new and old, are reported to be well constructed and looked after. The road-work executed by the department outside the Ellichpur division was confined to petty repairs. In addition to the above, the Gugamal Forest Road was completed by the Public Works Department to a distance of 22 miles (from Akot to Asalwara), while the remaining 16 miles (from Asalwara to Selu) were under construction. The cost of these roads has not been reported.

Yield and working.

93. None of the forest produce was extracted by Government agency. The following figures show the revenue realized from each class of forest produce for the past two years:—

	Rs. 1889-90.	Rs. 1888-89.
Timber	1,23,052	1,03,208

SECTION V.

Mines and Quarries.

95. There is nothing to record under this head.

SECTION VI.

Manufactures.

96. The manufactures of the province are confined to yarn, cotton cloth and petty unskilled handicrafts. Silk weaving is carried on at Kholapur in the Amraoti district, and edgings of silk to native cloths are made in some places. Cotton carpets are tastefully made at Akot, Buldana and Ellichpur; saries, turbans, kadies and blankets (kamals) are also manufactured in several parts of the province. As remarked in previous reports, the steam mill at Badnera is the only real manufactory in Berar. It produced 1,037,682 lbs of twist and yarn, against 1,774,207 lbs in the preceding year, showing a decrease of 736,525 lbs. There was also a falling-off in the number of persons employed in the manufactory, being 492 as compared with 742 in the preceding year. Besides meeting local wants, the produce was exported to Nagpur, Jubbulpur, and other districts of the Central Provinces, as well as to Khandeish in the Bombay Presidency. The weaving mill at the same place, started in December 1888, worked with success. The number of persons employed in this mill was 263 against 244; and it turned out 765,865 lbs of cloth valued at Rs. 358,999. The oil mill at Amraoti manufactured 475 tons of oil and 949 tons of oil-cake, an outturn almost corresponding with that of the preceding year. The number of steam cotton presses has increased from 23 to 24. The presses turned out 400,050 bales as compared with 381,324 bales in the previous year. The number of ginning factories has been largely augmented during the year, namely from 19 to 34. The following statement shows the presses of all kinds in the province together with the outturn of work for the past two years :—

SECTION VII.

Trade.

Registration.

97. The work of registration of the rail-borne traffic of the province was as usual performed by the Railway Audit Office at Bombay. Quarterly returns are published, with a short review by the Commissioner, for the information of the mercantile community, and the returns also appear in the *Hyderabad Residency Orders*. An interchange of these returns moreover is effected between Berar and other provinces.

Estimated outturn of crops.

98. There has been a change in the form of the provincial trade report, and consequently the form of the details now furnished differ in some respects from those exhibited in paragraphs 100 to 102 in the administration report of the previous year. The province of Berar is mainly agricultural, and its exports for the most part consist of cotton, food and other grains. Consequently particulars of the outturn of crops would be useful in connection with the particulars of its export trade. The following table shows the estimated outturn per acre and the total estimated outturn of the year as compared with the results of the previous year :—

Total trade.

99. The total traffic, taking imports and exports together, exceeded that of the previous year both in weight and value. The import traffic rose considerably, *viz.*, by 663,870 maunds in weight and Rs. 36,10,384 in value, or by 25 and 23 per cent. respectively. The export traffic, however, decreased from 4,276,377 to 3,635,968 maunds, although the value increased by nearly 5 per cent. The decrease in weight was largely due to a decline in the export of wheat, which fell from 864,069 to 471,777 maunds. The increase in value was due to a greater export of cotton, the most valuable export of the province. The total traffic of the year as compared with that of the two previous years is shown in the following statement:—

Imports.

100. The imports in coal, grains, metals, oils, and sugar all increased. The chief items are shown below and compared with the figures of the previous two years:—

Exports.

101. The most remarkable feature in the export traffic of the year is the increase in the exports of raw cotton. The exports for 1888-89 were more than double those of the preceding year and were the highest on record; those for the year under report show a further increase of nearly 36,000 maunds, and in value of as many lakhs of rupees. The export trade in grains as compared with that of the two previous years decreased considerably owing to the falling off in the exports of wheat caused by the poorness of the 1888 crop. Exports of oils fell off by 17·79 per cent. in weight and 3·35 per cent. in value. The quantity and value of the principal articles exported during the year are compared with those of the previous two years in the following statement:—

106. The works in progress during the year were four half-troop barracks for the British Cavalry, the re-roofing the Royal Artillery Barracks and Family Quarters, and the Barracks and Family Quarters of the 2nd E. I. Regiment at Trimulgherry. An expenditure of Rs. 2,51,017 was incurred against a sanctioned estimate of Rs. 3,24,184. Two single cook-houses for the four half-troop barracks, British Cavalry, four lavatories for half-troop barracks, British Cavalry at Trimulgherry, and the supplying of stones for sub-soil drainage for lines of Native Troops at Secunderabad, were completed at a total cost of Rs. 17,358, against an estimate of Rs. 20,688. Minor works costing Rs. 4,472 were carried out during the year, besides which a sum of Rs. 1,200, out of an estimate of Rs. 2,206, was expended on minor works in progress. A sum of Rs. 9,058 was also expended on minor works under Rs. 500 each. Works in progress or completed.

107. The military buildings in the Cantonment of Trimulgherry and Secunderabad were maintained in an efficient state of repair, and also the defences and draw-bridges of the entrenched post at Trimulgherry. Repairs.

General.

The additional buildings required for the increased strength of the British Cavalry Regiment at North Trimulgherry were nearly completed, with the exception of the general finishing, &c., of half-troop barracks Nos. IX and XI.

108. A revised project for improving the defences of the Hyderabad Residency was prepared and submitted for the consideration and orders of the Government of India, together with alternative estimates based on proposals made by the Resident and the Major-General Commanding the Secunderabad Division. Residency defences.

109. It having been decided by the Government of India to form a Military Works Command in the Madras Presidency under a Superintending Engineer under the command of the Commander-in-Chief of the Madras Army, the Imperial Military Works at Secunderabad and Trimulgherry were transferred to the Military Works Department from the 1st of April 1890. Thus the year under report is the last one under the old system by which Imperial Military Works were carried out by the local Public Works Department under the orders of the Resident. Under this system the substantial barracks in which the Subsidiary Force is now housed have been built. Transfer of Imperial Works at Secunderabad and Trimulgherry to the Military Department.

IMPERIAL—CIVIL WORKS.

110. The following table shows the final grants compared with the expenditure of the year :—

Heads.	Final grants. Rs.	Expenditure. Rs.

Net Total ...	11,13,300		10,92,428	

The grant of Rs. 11,13,300 was made up as follows :—

	Rs.
(*a*) From provincial revenues	10,24,300
(*b*) From the jaglia cess	89,000
	11,13,300

The grand total of expenditure from the provincial and jaglia cess allotment was Rs. 11,08,408; but deducting the sum due to reductions of suspense balances during the year as shown in the above table, the expenditure fell to

Rs. 10,92,428, showing a short outlay of Rs. 20,872. There was an unappropriated balance of Rs. 16,668 belonging to the jaglia cess ; and if this amount is deducted from the above saving of Rs. 20,872, the net lapse on the grant from provincial revenues of Rs. 10,24,300 was only Rs. 4,204.

The "jaglia cess" is a difficult one to utilize as it is only spent on projects receiving contribution from other funds as well ; and if the funds concerned are unable to contribute, the jaglia cess money remains unappropriated.

II.—*Military Buildings.*

112. The principal buildings under this head which were completed during the year are shown below—

	Estimate. Rs.	Total cost. Rs.

The principal works in progress were sinking a well at the camping ground at Bhar and constructing sepoys' lines for a Native Infantry Regiment at Raichur. On these Rs. 100 and Rs. 19,537 respectively were expended out of estimates of Rs. 1,156 and Rs. 30,000. This last charge is debitable to the Military Department. No expenditure was incurred on quarters for Hospital Assistants and Servants at Mominabad and the armoury and residence for Sergeant-Instructor, Berar Volunteer Rifles, at Amraoti which had been budgeted for.

III.—*Civil Buildings.*

Administrative buildings.

113. The principal works under this head which were completed during the year were stone-flooring the Deputy Commissioner's cutcherry at Amraoti, alterations and additions to the Small Cause Court at Amraoti, and constructing an office for the Forest Officer at Akola. The total cost of these works was Rs. 18,918 against an estimate of Rs. 20,411. Minor works estimated at Rs. 4,695 were completed at a total cost of Rs. 4,065. Works estimated at Rs. 15,167 were also in progress. A total amount of Rs. 3,954 was expended on these up to the close of the year.

Jail buildings

114. The actual expenditure on jail buildings completed or in progress during the year was Rs. 31,464 out of a total estimate of Rs. 42,428.

Police buildings.

115. The estimate sanctioned for these buildings amounts to Rs. 8,45,440, of which a sum of Rs. 7,63,816 was spent up to the 31st of March 1890, leaving a balance of Rs. 81,624 to complete the scheme. The works completed under

this head during the year were an office for the District Superintendent of Police at Amraoti; a police station at Badnera; a verandah to the Kusba police station at Amraoti; second class police out-posts at Jalamb in the Akola district, at Botha in the Buldana district, and at Argaon in Akola district, and improvements to police reserve lines at Yeotmal. Second class police out-posts at Dhamack in the Amraoti district, at Mahan in the Akola district and a police station at Jowlka in the Basim district were in progress.

Educational buildings.

116. A sum of Rs. 3,000 was provided for grant-in-aid for schools in Berar. The works completed were an Anglo-Vernacular school at Amraoti which cost Rs. 24,353, re-roofing with corrugated iron the Anglo-Vernacular school at Talegaon in Amraoti district at a cost of Rs. 24,274, and pine plank ceiling the Anglo-Vernacular school at Talegaon at an expenditure of Rs 809. Besides this an Anglo-Vernacular school at Mehkar, on which Rs. 17,518 had been expended out of an estimate of Rs. 24,010, was in progress,

Medical buildings.

Miscellaneous.

118. A sum of Rs. 2,000 was provided for the preservation of ancient monuments and buildings, out of which Rs. 387 was expended on preserving the mosque at Rohinkhed in the Buldana district. The preservation of certain temples in the districts of Wun and Yeotmal, estimated at Rs. 1,705, was also completed at a cost of Rs. 1,706. In addition to these works stables for the Government stallions at Ellichpur and Mehkar were completed during the year at an aggregate cost of Rs. 3,090 against an estimate of Rs. 2,916.

IV.—Communications.

Roads and bridges in progress or completed.

119. Stone-metalling 13 miles of the Amraoti-Ellichpur road.—This work was in progress. A sum of Rs. 29,071, out of an estimate of Rs. 44,850, was expended on the project up to the close of the year.

Re-constructing culverts on Amraoti-Morsi road.—The re-building of these culverts, which were destroyed by the excessive floods of July 1888, was completed during the year at a cost of Rs. 8,448 against an estimate of Rs. 9,193.

Bridge at Bhoogaon on Amraoti-Ellichpur road.—The work on this bridge of 3 spans of 80' steel girders on stone masonry piers progressed satisfactorily, and was completed after the close of the year under report. There are now no unbridged rivers between Ellichpur and Amraoti. The work which was estimated at Rs. 1,15,960 was completed at a cost of Rs. 1,00,260.

Gugamal Forest Road.—This road is being constructed in four sections, the total length being 36¾ miles; the whole of the 4th section, as also the greater part of the third section, was opened for traffic during the year. The amount expended up to the close of the year was Rs. 3,20,065 against an estimate of Rs. 4,69,682.

Metalling with broken stone the Akola-Hingoli road.—The collection of stone metal is in progress. The estimated cost of this road is Rs. 87,052. Rupees 7,001 were expended up to the close of the year.

The road from Nandura to Motla.—This road which is 20½ miles long was nearly completed. A bridge across the Pooli nulla alone remained to be finished. The work is estimated to cost Rs. 1,52,330. The total outlay up to the close of the year was Rs. 1,28,501.

Other works under this head for which no provision had been made were completed or were in progress during the year. The estimates and expenditure on them are shown below:—

	Estimate. Rs.	Expenditure. Rs.
Broken stone metalling miles 15 to 17 and 24 to 27 of the Medsi section of the Akola-Hingoli road. Completed	7,245	5,947
Constructing a bridge at Kooram. Completed ...	10,072	9,287

NOTE.—This amount was provided from the one per cent. cess of the Amraoti District.

	Estimate. Rs.	Expenditure. Rs.
Stone metalling the main station roads at Amraoti. In progress	3,010	1,901
Re-building arches of the bridge of four spans of 20 feet in 8th mile of the Amraoti-Morsi road. In progress.	4,881	1,519

	84,273	43,040

Minor works under this head, estimated at Rs. 9,012 in the aggregate, were also undertaken during the year. The total outlay on these was Rs. 7,161.

Repairs.

120. During the year, 821 miles of road, bridged and metalled, were kept in good repair at a cost of Rs. 3,35,394, being at the rate of about Rs. 408·51 per mile. In addition to the above, 32 miles of road were constructed making a total of 853 miles in all. All these roads are in charge of the Public Works Department proper. There are a few roads in charge of the Local Fund Public Works Department, but they are nearly all of them strictly speaking unmetalled fair weather roads with but few bridges, and are therefore not included in the foregoing figures. The average cost of making roads in Berar was Rs. 7,826 per mile, whilst the cost of maintaining them was Rs. 408·51 a mile.

Owing to the great difficulty of obtaining good moorum for the maintenance of roads and owing to the increasing traffic, it has been decided to metal the most important with broken stone. Forty-three miles were thus treated up to 31st March 1889 and seven miles during 1889-90, the average cost of which per mile amounted to Rs. 1,225.

Miscellaneous Public Improvements.

121. The construction of the Bheer tank at Chikalda, which is intended for the water-supply of the north end of the station, for the cattle on grazing ground and the several villages north of the valley, was in progress. Half the height of the main dam was completed during the year. A sum of Rs. 14,160 was expended out of an estimate of Rs. 20,683. The state of progress as well as the estimates and outlay on other important works under this head is exhibited in the following statement:—

Contribution Works.

126. The important scheme for diverting the sewage of the town of Secunderabad from flowing into the Hussain Saugor Tank is nearly completed. A revised estimate amounting to Rs. 1,25,894 was recently sanctioned for the work, against which Rs. 1,20,003 were expended up to the close of the year. A

project for supplying the cantonment and town of Secunderabad with water from a tank to be formed near the village of Jeedimetla is under consideration. Nothing further had been done beyond the boring and surveying operations on which a total expenditure of Rs 7,066 was incurred up to end of year.

Khamgaon State Railway.

127. The receipts during the year on the Khamgaon State Railway amounted to Rs. 65,372 and the expenditure including working charges and maintenance to Rs. 42,844, leaving a net profit of Rs. 22,528, equivalent to Rs. 4·59 on the capital outlay of Rs. 4,90,799.

Amraoti State Railway.

128. The receipts during the year on the Amraoti State Railway amounted to Rs. 1,02,023, and the expenditure including working charges and maintenance to Rs. 60,352 leaving a net profit of Rs. 41,671, equivalent to Rs. 9·35 per cent. on the capital outlay of Rs. 4,45,464.

Irrigation.

129. There were no works of this class undertaken during the year under review.

CHAPTER V.

REVENUE AND FINANCE.

130. The following statement shows the total actual receipts and expenditure of the years 1888-89 and 1889-90, and it is upon the figures shown under head Provincial that the assignment of 51 per cent for expenditure on Civil Administration, Public Works and Railways is calculated:—

Omitting excluded local funds, items 8 and 18, the surplus of the year under review was Rs. 14,64,728 as compared with a surplus of Rs. 14,24,939 of the previous year.

The year under review is the eleventh in which the system has been in force of assigning a certain percentage of the provincial revenues to the Resident for Civil, Public Works and Railway expenditure; the proportion for the first four years was 54 per cent., and thereafter up to 1886-87 52 per cent. This was subsequently reduced to 50 per cent. for a period of 5 years commencing from the year 1887-88, but as this percentage was found insufficient, the Government of India on the representation of the Resident increased the assignment of revenue from 50 to 51 per cent., with effect from 1889-90 to 1891-92, *vide* Department of Finance and Commerce Resolution No. 4347, dated 26th August 1889.

The balance at credit of the Resident under the new contract scheme on the 31st March 1890 was Rs. 10,11,388 as shown below:—

Under civil expenditure the principal increases and the heads under which they occur are as follows :—

Heads of account.	Amount. Rs.	Remarks.
Forest	6,337	Chiefly under II Timber and other produce removed from the forests by consumers or purchasers, and was due to outstanding commission paid to village officials on account of forest revenue collected in the past year; also due to payments made to them in connection with the collection of a correspondingly larger revenue.
General Administration ...	33,689	Increase under every minor head, chiefly under Commissioner's and Civil Office of Account and Audit, due to absentee allowances of officers. A sum of Rs. 6,800 was also debited to the latter head on account of arrear charges in connection with the audit and inspection of Berar accounts.
Law and Justice—Courts of Law.	22,369	Chiefly under Civil and Sessions Courts, due to the introduction of the new judicial scheme during 1889-90.
Education ...	11,086	Increase is chiefly under "grants-in-aid, payments by results, indigenous schools"; also slightly under "direction" due to the absentee allowance of the Director.
Superannuation Allowances and Pensions.	74,468	Due to the adjustment of arrear charges communicated by the Comptroller, India Treasuries.
Miscellaneous ...	33,830	Increase chiefly under (1) "Loss by exchange on local transactions," (2) "Cost of books and publications" and (3) "Miscellaneous refunds." As regards (1) a fluctuating head, (2) to the adjustment made for the first time on account of cost of gazettes and other publications supplied by other presidencies, and (3) to the re-adjustment of an erroneous credit in the accounts for 1888-89.

State Railways.

The charges of State Railways during 1889-90 show an increase of Rs. 18,054 over the actuals of the previous year, and was entirely due to improvement in the receipts. The working expenses are calculated at the train mile rates as actually incurred by the Company in working its own line with an addition of two-fifths of the net profits as remuneration for working.

Army—Hyderabad Contingent.

The following comparison gives the detail of the increase and decrease in the military expenditure during the year 1889-90 as compared with 1888-89 :—

1. *Army and Garrison Staff.*—The increase of Rs. 3,822 under Army and Garrison Staff is due to the appointment of Station Staff Officers from 1st September 1888.

In 1888-89 the pay of Station Staff Officers was charged from 1st September 1888 only, whereas in 1889-90 for the full year, hence increase in expenditure. A larger sum has also been expended under telegrams during 1889-90.

3. *Regimental Pay, Allowances.*—Increase of Rs. 64,407 under 3 Regimental Pay, Allowances, &c., is due to the addition to the establishment of British officers per regiment of cavalry and infantry, Hyderabad Contingent, and to the addition of one rate of good conduct pay to artillery and infantry. In 1888-89 the pay of additional officers and good conduct pay were charged from 1st October 1888, the date from which clause 152, Army Circulars, India, 1888, came into effect, whereas in 1889-90 for the whole year, hence the increase.

4. *Commissariat Establishment.*—Increase of Rs. 1,04,847 under Commissariat Establishment, Supplies and Services, is as shown below :—

Rs. 46,765 under Commissariat Supplies.
Rs. 58,082 under Commissariat Services.

Increase under Commissariat Supplies is chiefly due to the rise in the average prices of provisions.

Increase under Commissariat Services is partly due to the expenditure for movement of troops and transport of stores which was shown in previous years under different heads having been charged under this head in 1889-90, and partly to the rise in the price of gram, coolty, &c., purchased for feed of battery cattle, and also to certain charges appertaining to 1888-89 having been adjusted in the year under review.

5. *Stud and Remount Establishment.*—During 1888-89 thirty-two additional horses, sanctioned by the Government of India in addition to those required to replace casualties, were purchased, whereas in 1889-90 such horses and bullocks as were required to replace those cast, died, &c., only have been purchased, hence the decrease of Rs. 14,867 under Stud and Remount Establishment.

6. *Clothing Establishment.*—In 1888-89 triennial clothing to infantry regiments, Hyderabad Contingent, was issued and charged in the accounts for that year, but in 1889-90 clothing for artillery and the cost of khaki material to men of infantry only have been issued and charged, hence the expenditure under Clothing Establishment is decreased by Rs. 45,003.

10. *Ordnance Establishment.*—The increase of expenditure, *viz.*, Rs. 6,947, under Ordnance Establishment, considering the large amount of charge, is so small, calls for no remark.

12. *Education.*—The expenditure under Education, *viz.*, Rs. 946, is due to the appointment of Inspector of Schools in the Hyderabad Contingent.

13. *Sea Transport Charges.*—Decrease of Rs. 425 under Sea Transport Charges is due to the fact that no subaltern in the Hyderabad Contingent obtained a free passage to England during 1889-90.

14. *Miscellaneous Services.*—Charges for transport of troops and prizes for skill at arms adjusted in 1888-89 under 14 Miscellaneous have been shown during 1889-90 under 3 Regimental Pay and Allowances and 4 Commissariat Establishment, &c., in accordance with the new classification. There has been an increase in the expenditure under Burma Expedition and decrease under Camp of Exercise during the year under review as compared with the expenditure of the previous year, hence the decrease of Rs. 15,463 under Miscellaneous Services.

16. *Rewards for Military Services.*—Increase of Rs. 2,523 under Rewards for Military Services is due to the admission of certain native officers to the Order of British India during 1889-90.

17. *Retired Officers.*—The decrease of Rs. 10,463 under Retired Officers is due to the lapses by death of certain retired officers.

18. *Military Pensions.*—Increase of Rs. 15,110 under Military Pensions is due to a large number of men having been transferred to the Pension Establishment during 1889-90, the option of retiring after 21 years' service having been granted to men of the Hyderabad Contingent.

Withdrawal of surplus cash balance.

132. The surplus cash balance of the Berar treasuries for the season 1890 was originally estimated at Rs. 61,40,000. The actual surplus, however, exceeded the estimate by Rs. 11,35,000, and it was subsequently found feasible to transfer this sum. The whole surplus aggregating Rs. 72,75,000 was paid into the branches of the Bombay Bank at Akola and Amraoti for transfer free of remittance charge to Bombay to credit of the Hyderabad Administration in accordance with the Bank's agreement.

CHAPTER VI.

VITAL STATISTICS AND MEDICAL RELIEF.

SECTION I.

Births and Deaths.

136. The system of registration of vital statistics was the same as in previous years. System of registration.

137. The total number of births recorded during the year was 103,780 against 108,390 in the previous year, being a decrease of 4,610. Of the total registered births 53,463 were males and 50,317 females, the proportion of the sexes born being 106 males to every 100 females. The proportion of births to population was 39·6 per 1,000 of population calculated on the census figures of 1881, but on the corrected figures the birth-rate would be 38·0. In districts the birth-rate ranged from 45·6 and 41·9 in Buldana and Amraoti to 36·8 and 36·6 in Wun and Akola. In towns the mean birth-rate was 36·8, while in rural circles it was 40·0. Taken according to season the largest number of births was again recorded in the rainy season and the smallest number in the hot weather months. Births.

BENGAL SECRETARIAT LIBRARY.

138. The number of still-births registered was 4,386, of which number 2,453 were males and 1,933 females. The proportion of still-births to live-births per cent. was 4·1. Still-births.

139. Judging from the figures of mortality, the year was a very unhealthy one compared with its predecessor. The number of deaths registered from all causes rose from 64,865 to 111,556, and the death-rate to population from 24·7 to 42·5 per 1,000. Of the registered deaths 58,852 were of males and 52,704 of females. The proportion of male deaths to female deaths was the same as in the previous year, *viz.*, 111 of the former to 100 of the latter. In districts the death-rate ranged from 49·3 in Basim to 37·0 in Wun. The months of August and September were the most unhealthy of the year. The number of deaths in these months was 15,203 and 12,872 respectively. The fewest deaths were recorded in the months of January and February. The following figures show the annual rate of mortality per 1,000 of population according to age for the last two years :— Deaths.

SECTION II.

Immigration and Emigration.

140. The only district in which any movement of population took place is Wun. The number of persons who settled in the district was 1,757 and the number who left it 814.

SECTION III.

Medical Relief.

Number of hospitals.

141. A new dispensary was opened during the year, making the total number of dispensaries 44, against 43 in the previous year.

Medical staff.

142. The medical staff employed during the year was as follows:—

Surgeon-Major	...	1
Surgeons	...	3
Apothecary class — Civil Surgeons ...	...	3
Apothecary class — Assistant to Civil Surgeon	...	...
Hospital Assistants — 1st class ...	...	24

Patients treated.

143. The total number of patients treated rose from 256,799 in 1888 to 273,212 in the year under report, being an increase of 16,413. Of the total number treated 2,773 were in-door and 270,439 out-door patients. The average daily number of in-patients was 85·77 and of out-patients 1884·89, against 78·007 and 1856·7 respectively in the previous year. Of the out-patients 220,932 attended in person and 49,507 were represented through friends. Of the in-patients, 2,378 were cured, 95 relieved, 95 discharged, and 154 died. The average death-rate among in-door patients was 5·55 compared with 4·2 per cent. in the previous year. Of the total number of in and out patients treated, 128,893 were men, 3,147 women, and 101,172 children, and the daily average attendan ce was 950

men, 325 women, and 695 children. According to classes, 737 of the patients were Europeans, 1,860 Eurasians, 162,780 Hindus, 96,248 Muhammadans, and 11,587 of other classes.

Diseases treated.

144. Cholera, malarious fevers, dysentery and diarrhœa were more prevalent than in the previous two years. The following statement shows the various diseases for which patients were treated, compared with the figures of the previous year:—

Diseases.	1888.	1889	Diseases.	1888.	1889.

Operations.

145. There were 230 major and 7,937 minor surgical operations performed, against 218 and 7,203 respectively in the previous year. Of major operations 195 were successful; 12 persons were relieved, 10 were discharged and 14 died, while 7 were still under treatment at the close of the year.

Income and expenditure.

146. The following figures compare the financial results of the past two years:—

		1888. Rs.	a.	p.	1889. Rs.	a.	p.

Inspection.

147. With a few exceptions due to unavoidable causes, the inspection of dispensaries was performed regularly by the Civil Surgeons. The Inspector-General visited 6 civil hospitals, 21 dispensaries and 6 jail hospitals during the year.

SECTION IV.

Sanitation.

148. No important sanitary works were undertaken or completed in any of the municipalities during the year under report. All the municipalities

except Khamgaon are hard pressed for funds, and the large schemes for improved water-supply and drainage in Akola and Amraoti which have been contemplated for years past are blocked for want of money. Attention was, however, paid to the improvement of drainage, water-supply and conservancy more or less in all municipalities in proportion to their means of doing so. Out of an estimated income of Rs. 2,01,712 a sum of Rs. 91,529, or 45·3 per cent., was expended for sanitary purposes and 22·2 per cent. on conservancy alone. The total district expenditure (excluding municipalities) incurred on works of sanitary improvement was Rs. 1,02,213, against Rs. 1,05,476 in the previous year. The principal works executed by the Public Works Department and in progress during the year were—

	Cost. Rs.	a.	p.
Concrete drains in the town of Murtizapur	16,493	0	0
Extension of Amraoti city water works	30,000	0	0
Restoring and improving old tank at Koomagur	6,368	0	0

SECTION V.

Vaccination.

Strength and conduct of the staff.

149. No change occurred in the strength of the staff employed in vaccination, which remained at 7 native superintendents and 49 vaccinators and apprentices. The conduct of the staff was on the whole good and satisfactory.

Work done.

150. The work done by all establishments during the year under report is shown in the following table and compared with the figures of the two previous years :—

	Primary vaccination.			Re-vaccination.			Total vaccinated.		
	1887-88.	1888-89.	1889-90.	1887-88.	1888-89.	1889-90.	1887-88.	1888-9.	1889-90.

Total ...	96,725	101,225	96,745	433	4,377	6,927	97,158	105,602	103,672

The decrease in primary operations was due to the unhealthiness of the year, which caused much sickness among the operators and a high mortality amongst infants. Of the total number of persons vaccinated by the special establishment 49,975 were males and 45,351 females. The average number of persons operated upon by each vaccinator was 2,166, being 77 less than the figure for 1888. Out of a total of 92,651 successful primary operations, 85,209 were performed by the special establishment, and 7,442 at dispensaries. The percentages of successful cases were 95·76 and 95·7, against 96·4 and 95·5 respectively in the previous year. As regards re-vaccinations, the total number of successful operations performed by all establishments was 1,914 and the percentage of success 27·6, against 1,697 and 38·8 in the preceding year.

Cost.

151. The total expenditure incurred excluding the Melghat was Rs. 16,695-8-9, against Rs. 16,811-15-6 in the previous year, showing a decrease of Rs. 116-6-9. The average cost of each successful operation rose from Rs. 0-2-11 to Rs. 0-3-1.

Attitude of the people.

152. No difficulty is experienced with the lower classes, and the well-to-do and educated classes, with certain exceptions, generally accept vaccination. The class of people who generally give trouble are Marwaris, Banias, Muhammadans and Brahmins; but on the whole the benefits of vaccination are recognized and accepted.

CHAPTER VII.

INSTRUCTION.

SECTION I.

Education.

No. of schools and scholars.

153. The operations of the Educational Department during the year under report show somewhat better results than in the previous year. Schools for boys increased by 49 and those for girls by 3, while the number of scholars shows an increase of 1,305 altogether, *i.e.*, 1,239 boys and 66 girls. The following table shows the number of schools and scholars at the close of the year as compared with the figures of the preceding year :—

Description of school.				No. of schools.		No. of scholars.

* This includes 16 pupil-teachers who are being trained for masterships in the different districts.

Distribution of schools and scholars according to districts.

154. Taking the number of schools and scholars according to districts, Akola still shows the largest number of schools and the smallest average number of square miles to each school; Ellichpur has the largest percentage of scholars to population of school-going age, and would also, if the Melghat were excluded from the calculation, have the smallest average number of square miles to each school. The average for the province was one school to every 15·6 square miles as against 21·7 in 1888, and the percentage of male pupils to male population of school-going age was 21·7 as compared with 21·3 in the previous year.

University education.

155. Of 7 students holding Berar scholarships at colleges in the Bombay Presidency, 3 passed the P. E. examination and 1 the First examination in Medicine. Of the Berar students who did not hold scholarships, 1 graduated in Arts, 2 passed the First B. A. examination, and 6 the P. E. examination.

156. On the whole the results of the Matriculation Examination were satisfactory. Out of a total number of 31 students who presented themselves for examination from the Akola and Amraoti High Schools, 17 passed, against 23 and 17 respectively in the previous year. Of the successful candidates, the Akola High School passed 9 and the Amraoti High School 8. Matriculation.

157. The following table gives the statistics relating to the 2 High and 24 Middle or Anglo-Vernacular Schools:— Secondary schools.

158. During the year 12 new Government primary schools for boys were opened and 7 closed, leaving an increase of 5. The total number of scholars rose from 30,221 to 30,807, and the average daily attendance from 20,874 to 21,816. There was an increase in fee receipts and a decrease in expenditure, while the total cost and the cost to provincial revenues both fell considerably. The percentage of expenditure from provincial revenues to the total expenditure on Government primary schools also decreased from 45·3 to 44·4.

Aided schools.

159. The number of schools under private management aided by fixed monthly grants was the same as in the previous year, *viz.*, 4, but the number of scholars rose from 190 to 205. The number of pupils who passed in the primary standards fell from 73 to 50. The aggregate monthly allowance granted to these schools was, as in previous years, Rs. 92.

Indigenous schools.

160. The number of indigenous schools rose from 487 to 529, and the number of scholars from 5,759 to 6,065. The number of schools inspected and examined was 484, being 8 more than in the previous year. The total number of schools which earned grants and prizes during the year was 468 against 437 in 1888-89, while the total number of pupils who earned grants rose from 2,872 to 3,155. The total value of grants of all kinds rose from 10,529 to Rs. 11,185.

Training college.

161. At the close of the year there were, including pupil-teachers in other schools, 92 students under training as pupil-teachers, against 98 in the previous year. 56 of these students were examined in the first year's course and 27 for certificates, and 37 and 21 respectively passed. As regards the examination for entrance into the Training College, 78 candidates were examined —62 on the Marathi and 16 on the Hindustani side; 35 of the former passed and 9 of the latter. Of 41 students who joined the college, 33 were admitted on the Marathi and 8 on the Hindustani side. The number of students who obtained employment from the college rose from 21 to 30.

Drawing.

162. The results of the first grade examination of the Bombay School of Art were somewhat more satisfactory than in the previous year. The number of students who obtained certificates rose from 4 to 12. Of this number, 3 were from the Akola and 8 from the Amraoti High School, while 1 student belonged to the Training College.

Industrial training.

163. The Industrial School at Akola under the superintendence of Mr. M. B. Fuller was open throughout the year. From the latest reports there were 27 boys on the rolls of the school, of whom 20 were receiving scholarships. The boys are being taught carpentry and shoe-making, and two are being trained as smiths. The tailors' shop had to be abandoned as the demand for its work was not encouraging.

Female education.

164. Female education made satisfactory progress during the year. All the Government and Municipal schools for girls are reported to be flourishing. The following statement compares the results for the past two years :—

† The annual cost is calculated on the *direct* expenditure only. The average cost of educating each pupil is obtained by dividing the direct expenditure by the average number on the rolls monthly during the year.

‡ The average cost of each pupil in Local Fund and Municipal Schools is to be obtained from the figures given in General Table VII.

§ Fractions of a rupee should be omitted, except in the columns showing the average annual cost of educating each pupil.

"Berar Vaktrutwo-tejak Sabha," Amraoti.	The object of the institution has been to encourage and foster the habit of delivering public lectures on popular and current literary and scientific subjects, and thereby to revive and to improve upon the rather neglected or forgotten art of speech among the native societies.	Not stated.	Not stated.	1	1874	This sabha or society has been established in connection with the Amraoti City Library, and is considered a part of the institution. The balances, if any, after deducting the expenses, are carried to the library's account. But when the expenses exceed the income, they are paid from the library fund.

No information regarding this institution is given in the departmental report for the year 1889-90. The foregoing particulars are taken from the previous year's return.
